Index to Volume 33

SUBJECTS

Accidents
  falls
    as predictor of institutionalization, 602
    visual perception dominance and, 330
  inpatient, with hospitalization, 833
Activities of daily living measure, 698, 730
Addison's disease case study, 63
Adrenal insufficiency, 63
Adrenergic receptor function with aging, 184
Aging
  adrenergic receptor function with, 184
  advantages of, 216
  biology of, 218
  blood pressure changes with, 19
  body composition changes with, 800
  bone mass with, 800
  brain tissue changes with, 264, 413
  carbohydrate metabolism with, 286
  central nervous system function with, 880
  chelation therapy for effects of, 548
  clinical neurology of, 654
  copper levels with, 847
  endogenous pyrogens with, 859
  fever in relation to, 859
  fiscal austerity and, 306
  gastric homeostatic mechanisms with, 340
  glucose metabolism with, 286, 626
  growth hormone levels with, 800
  hepatic changes with, 800
  immune function with, 781, 859
  infections common with, 496
  insulin action with, 286
  interleukin-1 with, 859
  interleukin-2 with, 781
  left ventricular compliance with, 758
  lifestyle effects on, 406
  mental health and, 376
  non-insulin dependent diabetes mellitus with, 286
  proteins associated with, 626
  psychiatry of, 218
  renal effects of, 278, 800
  in rodents fed restricted diets, 125
  senility with, 733
  sexual changes with, 635
  splenic changes with, 800
  thermoregulation defects with, 859
  thyroid disease with, 19
  thyroid hormone physiology and function with, 360
  welfare provisions for problems of, 869
  xenon contrast CT-cerebral blood flow measurements with, 413
Alcoholism in elderly
  sex and, 635
  social and biomedical issues of, 652
Aluminum levels with dementia, 715
Alzheimer's disease
  aluminum levels in, 715
  bibliography on, 366
  biogenic amines in, 715
  biologic markers for, 715
  Capgras syndrome with, 811
  carbohydrate metabolism in, 715
  case study of twins with, 61
  cholinergic system in, 715
    neurochemical and neuroendocrine studies of, 741
    psychopharmacologic studies of, 749
  clinical features of, 61
  cognitive impairment in, 228
  computed tomographic scans of brain with, 715
  cortisol levels in, 741
  diagnostic criteria for, 1, 2
  evoked potentials in, 715
  genetic markers in, 715
  growth hormone measurements in, 741
  heart disease with, prevalence and significance of, 530
  immunologic factors in, 4, 715
  maternal age as risk factor for, 167
  monoamine oxidase in, 715
  parathyroid hormone levels in, 715
  pituitary hormones in, 715
  red blood cell abnormalities in, 401
  somatomedin levels in, 715
  somatostatin levels in, 715
  support group programs for care of patient with, 664
  T lymphocyte subpopulations in, 4
  thyroid disease with, 530
  treatment of
    chelation therapy in, 548
    naloxone in, 155
  physostigmine in, 749
Anemia among elderly, 764
Aneurysms, cerebral, obstructive hydrocephalus secondary to, 210
Anorexia nervosa, 213
  giant cell arteritis with, 303
  from infectious diseases, 496
Antibiotics
  for infectious diseases, 496
  for urinary tract infection, 489
Anticoagulation
  risks vs benefits of long-term, 298
  warfarin, influenza vaccine effects on, 269
Antidepressants, tricyclic, 687
Antipsychotics for dementia, 206
Appendicitis, 496
Arterial disease
  claudication, intermittent, 13
  stroke. *See* Stroke
  aneurysms, 210
Arthritis
  predisposition to, with aging, 496
  septic, 170
  sexuality with, 635
Atrial fibrillation in elderly, chronic, 298
Atrial septal defect, 151

B lymphocyte defects with aging, 781
Back pain, low, prevalence and functional correlates of, 23
Bacteremia
  pneumococcal pneumonia with, 153
  predisposition to, with aging, 496
Biofeedback treatment for fecal incontinence, 320

Bladder problems with aging, 635
Blood pressure
  atrophic changes in brain matter correlated to, 264
  hypertension. *See* Hypertension
  in hyperthyroidism, age factors affecting, 19
  overestimation of, in elderly, 659
Bone mass with aging, 800
Brain
  centenarian, CT imaging of, 579
  ventricles, cisternae, and sulci enlargements of, 264
Bronchobiliary fistula, 507
Burn injuries, 768

Cancer
  age at diagnosis and treatment of, relationship between, 585
  age structure of medical journal articles on, 773
  copper and zinc levels with, 847
  psychosocial impact of, 429
  sexuality with, 635
Capgras syndrome, 811
Carbamazepine-lithium neurotoxicity, 876
Carbohydrate metabolism
  with aging, 286
  in Alzheimer's disease, 715
  small intestinal transit rate effects on, 340
Care, *see* Health care
Catheterization, urinary
  evaluation of, in nursing home population, 479
  for neurogenic bladder, 635
  penile laceration from, 712
  for urinary incontinence, 842
  urinary tract infection from, 489
Central nervous system function with aging, 880
Cerebrospinal fluid analysis
  of biologic markers in Alzheimer's disease, 715
  in dementia evaluation, 392, 397
  folic acid deficiency in, 552
Cerebrovascular disease. *See* Stroke
Ceruloplasmin levels in elderly, 847
Chelation therapy for Alzheimer-type dementia, 548
Cholecystitis, 496
Chromosomal markers in Alzheimer's disease, 715
Cigarette smoking and intermittent claudication, 13
Claudication, intermittent, epidemiologic features of, 13
Cognitive impairment
  of Alzheimer's disease, 741
  assessment of, 467
  cholinergic deficit in, 741
  meaning of, 228
  patterns of, among residents of eastern Baltimore, 236
  screening for, 483
Computed tomography
  in Alzheimer's disease diagnosis, 715
  behavioral correlates of scan changes, 96
  of centenarian brain, 579
  in cerebral blood flow measurements of parkinsonism and aging, 413
  volume change detection of ventricles, cisternae, and sulci by, 264
Congenital heart diseases, 151
Copper deficiency, 847
Cortisol levels in Alzheimer's disease, 741
Crohn's disease, 492

Dehydration in terminally ill, 808
Dementia
  Capgras syndrome with, 811
  cognitive impairment with, 228
  community-based assessment of, 602
  definition of, 228
  diagnosis of, 467
    criteria for, 228
    lumbar puncture for, 392, 397
    univariate/multivariate analyses of mental status exam for, 483
  emotional incontinence with, 375
  increased incidence and attention to, 459
  infectious causes of, 392, 397, 496
  from lithium-carbamazepine neurotoxicity, 876 from
  management of, 382
    antipsychotics in, 206
    family perspectives on, 383, 664
    physicians' perspectives on, 383
    support group programs for, 664
  prevalence and significance of heart disease with, 530
  quinidine-induced, 504
  responses of "I don't know" in, 253
  reversible, 467, 483
  thyroid disease with, 538
Depression
  from care of relative with dementia, 664
  community-based assessment of, 602
  folic acid deficiency and, 552
  heart disease with, prevalence and significance of, 530
  memory impairment and, 570
  patterns of, in residents of eastern Baltimore, 236
  reclassification of, in medically ill elderly, 446
  responses of "I don't know" in, 253
  in stroke management, 48
  tricyclic antidepressants for, 687
Diabetes mellitus
  incidence of, with aging, 286
  non-insulin dependent, 286
  perforating foot ulcers with, treatment of, 41
  sexuality with, 635
  weight loss effects on, 93
Diapers for urinary incontinence, 842
Diet restrictions and aging, 125
Digitalis withdrawal, 850
Dimethylsulfoxide for diabetic perforating foot ulcers, 41
Diphenhydramine usage in nursing homes, 436
Disabilities
  evaluation of, in community-based geriatric assessment, 602
  from stroke, 48
Diuretics for hypertension, 109
Diverticulitis, 496
Drugs, *see also* specific drugs
  adverse reactions in long-term facility residents, 449
  appetite enhancement from, 687
  craving for sweets from, 687
  overuse of, among elderly, 602
  patterns of usage, among elderly, 827
  prescription of
    with admission and discharge from hospital, 827
    physicians' knowledge for, 616
  sexuality effects of, 635
  tamper-resistant packaging for, 136
  for urinary incontinence [illegible]
  vaccine interactions wit[illegible]

Embolism
  atrial fibrillation as cause of, 298
  cerebral. *See* Stroke
Emotional incontinence, 375
Endocarditis, infective

among elderly, 496
rheumatic heart disease with, 693
Environmental settings for elderly, 874
Ethics
of cessation of patient nourishment, 790
of clinical trials, 91
of empirical methodology, 313
